

BLUE MEDSPA™

SmartLipo Experience Testimonials

BEFORE

AFTER

20 year old female. Abdomen and love handles.

"The SmartLipo procedure has had a great impact on my life. It has motivated me to be even more active to maintain my stomach and in general I've been getting great reactions from my family and friends. SmartLipo itself is amazing. It has a short recovery experience and is relatively painless. The BLUE MedSpa staff makes it all the more worth it. The entire staff is amazing and they care about you as if you are their own. On a scale of 1 to 10 I would give them a 100!"

BEFORE

AFTER

23 year old male. Abdomen and love handles.

"FANTASTIC! From the very moment I sat down to have a consultation to my most recent check-up it's been extremely easy, fast, private, professional and just an all around great experience. I have never had surgery before and felt a little anxious and unsure about my decision. The staff at BLUE MedSpa made me feel comfortable and relaxed the day of the surgery and throughout the entire procedure. The day after I received the SmartLipo procedure I had to keep reassuring myself that I actually had surgery because I felt awesome. Almost like it never happened in the first place. The first time the bandages were removed I couldn't believe my eyes. You could really tell a difference! Now, two months later, I can tell a huge difference in the contouring on my midsection and those pesky love handles. I have already recommended SmartLipo at BLUE MedSpa to others who I hear complain about those "stubborn" areas that diet and exercise can't get rid of."

BEFORE

AFTER

67 year old female. Chin and neck.

"I am in my 60's and have never had any facial procedures so I was very apprehensive about having SmartLipo on my chin. This surgery was painless and I never needed the provided pain medication for post surgery. It has been seven weeks since my surgery and I am amazed how much younger I look. My husband thinks I'm looking like I did when we first met in college. I had debated on getting a full face lift and after consulting with the team at BLUE MedSpa opted to go with just the smartlipo and a thermage procedure with them. It was perfect advice as the results have been quicker and relatively pain free. A big thank you to the SmartLipo team at BLUE MedSpa for making an older lady look and feel years younger."

BEFORE

AFTER

42 year old male. Abdomen and love handles.

"I had hopes that there would be extraordinary physical changes and as it turns out they were well founded. In addition to the physical changes I have experienced some very positive mental and emotional results as well. I have more self-confidence and can now wear the clothes I want to wear without feeling like I look "frumpy". I no longer have the extra "spare-tire" around my mid-section! I did not go into this procedure without doing research. BLUE MedSpa explained exactly what was going to happen and when I should start seeing results. The staff at BLUE MedSpa go above and beyond expectations of what most would consider good customer service. I can only say if they treat every one of their clients the way they treated me they will be in business for life! Thank you so much for making such a positive impact in my life."

27 year old female. Abdomen and love handles.

"As a pageant competitor and model, I am ecstatic about the results I've garnered as a client at BLUE MedSpa. To say that BLUE MedSpa changed my life would be an understatement. SmartLipo not only gave me the body that I've always worked so hard to achieve, it gave me the confidence to show it off! What crunches and cardio couldn't do, SmartLipo did. Beauty is only skin deep, but it's an awesome benefit to look the way you feel inside...thanks BLUE MedSpa!"

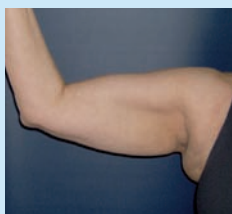

BEFORE

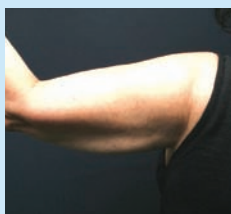

AFTER

36 year old female. Abdomen and love handles.

"The results are incredible! My stomach is so much flatter and the loose skin from having 3 children is mostly gone. I was so frustrated before the surgery. I worked out and watched my diet, nothing worked. I am so much happier with my appearance now. I am taken aback with all the compliments I've been getting. If you have any doubt about how simple, safe and effective this procedure is, please call me. I will be thrilled to share my success story!"

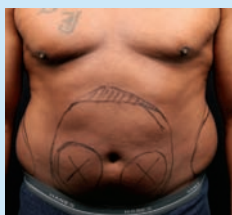

BEFORE

59 year old female. arms.

"I've had several areas sculpted with smartlipo at BLUE MedSpa and couldn't be happier! My stomach is flatter and my chin is a single chin again. The best part of all has been my arms. When my granddaughter kept playing with and swinging my flabby arm skin around and saying "what's this nani? what's this?" I knew something had to be done. Thankfully, the wonderful team at BLUE MedSpa had the answer-smartlipo to the rescue! The procedure was so simple and safe I was back to work again the next morning. I did weeks of research until I knew BLUE was the medspa to have my procedure completed in. Blue Medspa was THE top place in the South on several websites and blogs. They've completed more procedures of smartlipo than just about anyone else in the South. I wouldn't trust my body with anyone else but BLUE MedSpa."

BEFORE

AFTER

35 year old male. Abdomen and love handles.

"I decided to get smartlipo to get rid of my love handles and stomach. Thanks to smartlipo I have lost inches in my stomach. It feels great to have my friends and family notice that I've no longer got that fat that was once there. The service at BLUE MedSpa is good and I would recommend BLUE MedSpa!"

53 year old female. arms.

"10 days ago I had five sites of smartlipo at one time. I was expecting pain and lots of downtime. The first day was minor bleeding and no pain. The second day was minimal tenderness. Soon after the first couple of days I resumed normal activity. I have been able to notice the difference in my clothing as the inches have fallen off. Thanks to BLUE MedSpa I can go into the holidays without a care of how I will look in my favorite dresses and now wear any style of clothing! Thanks for the opportunity to share with others how easy and successful the smartlipo experience at BLUE MedSpa was!"
